

Prattonia 2023

Prattonia 2023

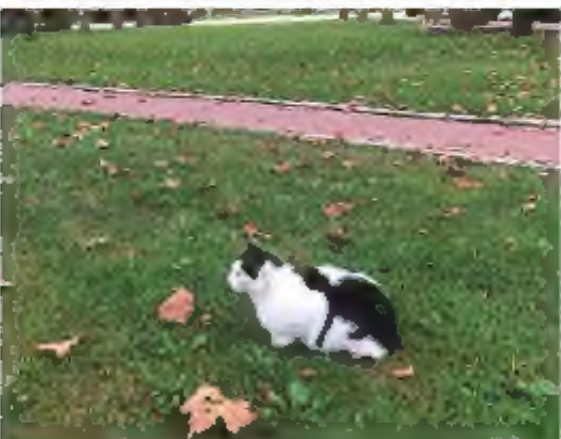

PRATTONIA 2023

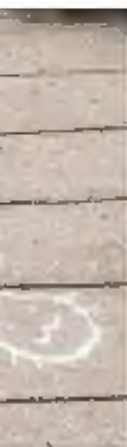

This yearbook represents the changes that occurred to you and Pratt Institute throughout the past few years. Fall of 2019 started as a time for celebration with the opening of the brand new, first-year Emerson Residence Hall, Pratt cats sneaking into various buildings looking for attention, group trips off campus, and successful implementation of the "ban the plastic water bottle" campaign on campus. The Pratt experience changed dramatically in the following semesters where you learned about Zoom, figured out how to set up a remote learning environment, wondered when you'd be able to come back to campus, and finally celebrated being back in person. Once again, there were opportunities for group trips/experiences both locally and globally, a new MicroMart for those in Pratt Manhattan, the opening of the space in the Navy Yard, and additional construction and renovation projects around the campus.

The majority of the pictures in this book were submitted by you, the graduating students, and we hope you will carry these memories with you. Please stay connected through the Alumni Association to keep us updated on what you are doing. In the future, stop by the various locations in Brooklyn and Manhattan to see how Pratt continues to evolve and shape the learning experience for fellow Cannoneers.

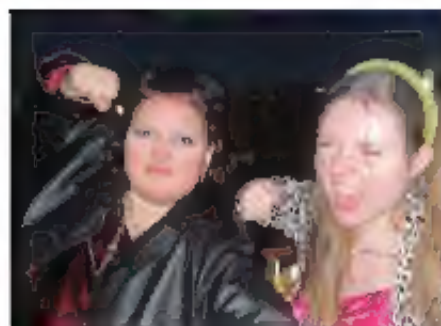

Congratulations on your achievement and best wishes!
